

# MISSION:POSSIBLE 10

## PROJECT HIGHLIGHTS - WEEK 4

TWO HOME REPAIR SITES IN PARTNERSHIP WITH REBUILDING TOGETHER PITTSBURGH

### **SOUTH HILLS HOME REPAIR:** Project Leader: Scott Van Horn

[vanhornsm@verizon.net](mailto:vanhornsm@verizon.net)

A senior citizen has a home on the border of Bridgeville and Upper St. Clair with much work needed for folks of any skill level, including window repairs, replacing carpeting, plumbing and electrical issues, site work and fresh paint inside and out. There is much to do and many hands will help accomplish this ambitious project. There will be copies of the scope of work at the Home Repair table on Sign-Up Sunday.

### **SHARPSBURG SITE HOME REPAIR:** Project Leader: Andy Hromoko

[andrew.hromoko@gmail.com](mailto:andrew.hromoko@gmail.com)

A family in Sharpsburg in also need of site work, with a forty eight foot wall that needs to be removed and replaced. This will be mainly a high school youth project, but we will need some adults as well.

### **OFF THE FLOOR PITTSBURGH:** Project Leader: Kristen Waugh and Bob Myers

[knwaugh86@gmail.com](mailto:knwaugh86@gmail.com)

Off the Floor Pittsburgh (OTF), a ministry that started at MLEPC in 2004, is a Christian non-profit that recycles used furniture in good condition, delivering it free of charge to families in deepest need. OTF will again be part of Mission:Possible, focusing on collecting kitchen and bath items and bedding. This year, there is also a need for extra long twin sheets as they have just received a huge donation of extra long twin beds. And each family is given a Bible along with the delivery of furniture, so we will also accept donations of new Bibles, New International Version. OTF has recently acquired a second truck, so a truck will be available on site at MLEPC during M:P week and also will be available for pick-ups during that time.

### **CHILDREN'S OPPORTUNITIES:** Project Leader: Ashley Gardner

[agardner@mlepc.org](mailto:agardner@mlepc.org)

There will be activities each day for the kids to serve in our community! Projects will include making cards and delivering cookies to local police and fire departments, hanging door tags for the Dormont Summerfest, and singing at nursing homes. We are also partnering with Jubilee Christian School to offer a Christian Robotics Camp to kids in the community. Children will be working with Lego EV3 robotics kits to build and program robots.

### **LEMONADE STANDS:**

Want another way for your family to help with Mission:Possible? Consider having the kids host a lemonade stand to raise money for a backpack with school supplies for one or more children in need in the South Hills. (School supply lists will be available at Sign-Up Sunday). You can sell homemade goodies too, if you like, or just a cold drink. Choose a date, pick up a Mission:Possible yard sign and some flyers about the events for the week from the church, then post a message on Facebook or Instagram and spread the word to friends and family. Use the opportunity to let individuals know why you are having the stand and to evangelize! Questions? Kamryn York ([Kamrynyork@gmail.com](mailto:Kamrynyork@gmail.com)) or Natalie Wagner ([nataliewags@hotmail.com](mailto:nataliewags@hotmail.com)).

FOR NOTHING IS IMPOSSIBLE WITH GOD." LUKE 1:37
